WHAT TO DO IN MONACO

Monaco, officially Principality of Monaco, French Principauté de Monaco, sovereign principality located along the Mediterranean Sea in the midst of the resort area of the Côte d'Azur (French Riviera). The city of Nice, France, lies 9 miles (15 km) to the west, the Italian border 5 miles (8 km) to the east. Monaco's tiny territory occupies a set of densely clustered hills and a headland that looks southward over the Mediterranean. Many unusual features, however, have made Monaco among the most luxurious tourist resorts in the world and have given it a fame far exceeding its size.

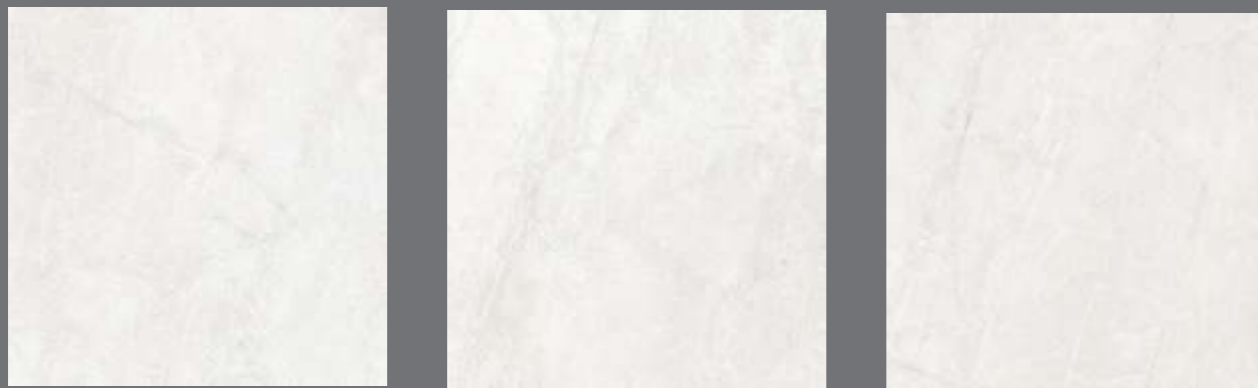

A substantial portion of the government's revenues comes from taxes on commercial transactions; additional revenue is drawn from franchises on radio, television, and the casino, from state-operated monopolies on tobacco and postage stamps, from sales taxes, and from the taxes imposed since 1962.

What are the features of a modern style house?

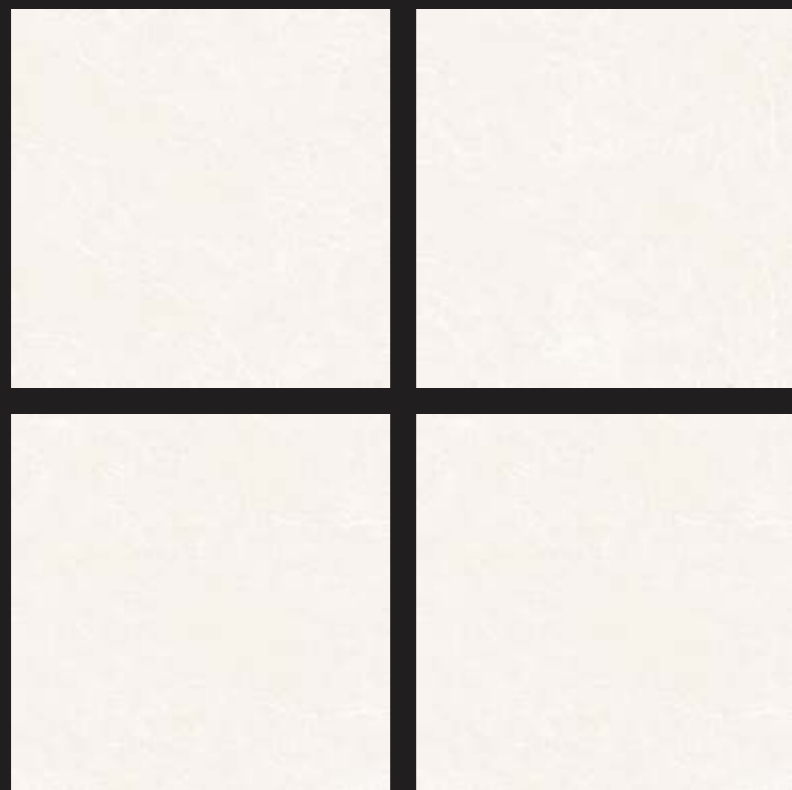

One of the important features in the style of decoration are large windows. In this style, it is said that modern houses take the interior spaces outside and, on the contrary, they bring the exterior spaces inside the house. This strange phrase is due to the use of large doors and windows in modern style houses, which make it easy to see the outside from the inside of the house and enough light to enter the house.
